Governor Candidate  
Guide & Article from  
NY Daily News!***

If reelected, I will BREAK what I can only refer to as one of the last and LARGEST public monopolies left... Public Schools!! PUBLIC SCHOOL TEACHERS are the problem!! Public school teachers don't want to be evaluated! The solution is to fully fund and increase the number of Charter Schools! I privatized our electric and got rid of LIPA, look how well that is working... your electric bills have skyrocketed, but LIPA is gone!!
